Grading Criteria

Final grades will be assigned based on the following:

Participation (40%)

UEP 410 course is a seminar class and also a collaborative learning project. While your comps project is an individual capstone research project, much of the learning will be done with others in the class, including peer review of research and research progress. The success of the class and your project will rely on your participation in class and your commitment to the peer-review process to support your colleagues and revising your own work. In this course, we as your instructors aim to see your second and third drafts rather than a first draft. We expect writing turned in to us to have gone through a few rounds of revision on which we will base both your progress and your grade.

Final paper (60%) Due by December 6 by 5:00 p.m.

The final paper will be the first portion of your senior comps. We expect that it will be 15-20 pages. It will include your research question and sub-questions; a structured literature review; a background section; your methodology; any instruments or data sets you will be using for your data analysis and collection; and your work plan and timeline for the Winter Break and Spring semester.

The quality of your paper (as well as ultimately your successful comps project) depends on meeting several hard deadlines during the fall semester outlined below.

Course/Campus Policies and Support Services

Classroom Responsibilities

Teachers and students share the responsibility of learning and teaching. We see our responsibilities as creating the space and stimulating enthusiasm for learning, coming prepared to class, creating the goals and structure for a course, introducing concepts and ideas, and facilitating the sharing of knowledge amongst the students and between the professors and the students. Students are responsible for attending and participating in class, completing assignments in a timely manner, and being prepared to discuss readings and material in class.

Classroom Community

The comps class is designed to facilitate a co-learning community of students as researchers. Students are responsible for engaging in respectful, open, and thoughtful discussion with each other and the professors; faculty are responsible for ensuring that discussions in the classroom are inclusive and productive.

Academic Integrity

Occidental College assumes that students and faculty accept and respect the principle of academic honesty. Academic misconduct, including cheating and plagiarism, is not tolerated. The policies for cheating, plagiarism, and academic misconduct are outlined in the Student Handbook available online [here](#).

Support Services

The college provides a set of resources to students to support them in learning. The [Writing Center](#) provides writing assistance to students to develop ideas, draft, and revise papers.

Students with documented disabilities who are registered with Disability Services are required to present their accommodation letter to the instructor at the beginning of each semester or as soon as possible thereafter. Any student who experiences significant physical or mental impairments may contact Disability Services at (323) 259
